

TAITO PIRKANMAA OY

PIRKKA WOOL YARNS

Pirkka yarns of Taito Pirkanmaa Oy have been on market almost 50 years. Development of classical, quality Pirkka yarns continued decades. Color card follow the sign of the time.

Pirkka yarns are Finnish yarns, dyed and belted in Finland. The further processing in Finland is high. In dyeing are used EU approved reactive colors. Working conditions is by regulation of environmental instructions.

Pirkka-yarns are combination by several wool qualities made in spinning mills located in EU area. The combinations are specified by the purpose of the yarns.

Pirkka yarns are ecological yarns. They are durable, recyclable and dyeing process does not overload the nature. The processing of yarns takes place in a small area where transport is minimized.
